

California Proposition 65 Statement

Gemline is committed to ensure that our products meet national and local legal requirements, including California Proposition 65. (Cal. Prop 65)

Gemline products are tested for and free of chemicals currently targeted by Cal. Prop 65 and therefore we do not recommend a Cal. prop 65 warning label. Customers can request that individual products have a warning label added (additional charges will apply) and can inquire with Gemline prior to placing an order that will ship to California should they have any questions.

Some of our brand partner products do require Prop 65 warning which is already attached to the product. Below is a current list of our brand partners that do come with a Prop 65 warning labeling on their products:

Brand name	Require/Contain Prop 65 warning labeling

Samsonite	YES
Timbuk2	YES
VSSL	YES

What is your responsibility?

Gemline reminds all resellers that the, "*Responsibility to Provide Consumer Product Exposure Warnings*", as mandated by Prop 65, means that distributors of products have a duty to inform *their* customers of the warning requirement and to take reasonable steps to ensure their customers are properly providing the warning to the ultimate purchaser of the products.

What is California Proposition 65?

Proposition 65 ("Prop 65"), also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a California ballot initiative in November 1986. The Act is a right-to-know/warnings statute requiring that Californians receive a "*clear and reasonable*" warning before exposure to an ever-growing list of chemicals (over 900 currently) that may be found in consumer products, foods and beverages, workplaces, and public places.
